<input type="radio"/> Other:	

## Returned items

Amount	Item	Sensor code / Model Duo Charger

## Notes

--

## Instructions return

### Returning

Make sure that:

- You first contact us via [info@ipostechnology.com](mailto:info@ipostechnology.com) with the subject "Ipos Online Return";
- The items are complete;
- The items are in the original, undamaged packaging;
- A copy of the invoice and this return form are enclosed.

### Useful tips

We try to process your return as quickly as possible. Here are some useful tips.

- You can see the sensor code when you connect it with your phone. Can't turn them on or can't find them with your phone? Leave this box empty.
- The charger model is found on the sticker on the bottom.
- Make sure you package your items well so they don't get damaged during transport.
- To reduce waste, you can use the box in which we've shipped the item to you.

### Shipping

Bring the package to a post office of your own choosing. You will receive proof of shipping there. Save this until your return has been fully processed. This is your proof that you have actually shipped the package, and you may be asked about it if your package gets lost during transport.

### Processing

As soon as the return has been processed with us, we will contact you. Of course we try to do this as quickly as possible. Haven't heard from us after 14 days? Please contact us at [info@ipostechnology.com](mailto:info@ipostechnology.com) or fill out our contact form on the website.
